## Helping children and youth achieve their potential

To succeed in school and in life, children first  
need to start school ready to learn and then  
they need encouraging role models and building  
blocks to help them through to graduation.

United Way of the Greater Dayton Area is funding programs  
and working with partner agencies, schools, government,  
and other organizations to enhance early childhood  
development and ensure children have the assets they  
need to become productive adults.

## Helping families achieve financial stability leading to independence

Right here in our community, far too many  
families are walking a financial tightrope ...  
barely getting by.

Your local United Way is working to these help these  
hard-working families turn that tightrope into solid  
ground by funding programs from credit counseling to job  
training and literacy tutoring and by providing outreach to  
dislocated workers, homeowners facing foreclosure, and  
families eligible for tax credits.

## Promoting health and well-being for individuals and our community

The health of a person ... or of a community ...  
has a major impact on quality of life.

From funding health-related programs to serving on a  
local coalition to address the needs of the uninsured  
... from linking people to services to linking people to  
volunteer opportunities ... United Way improves the  
quality of life for our neighbors in need and builds a  
better community for all of us.

## With your help, we have the ability to turn hope into reality.

Last year 236,871 people living in Montgomery,  
Greene and Preble Counties were helped by a United  
Way funded program – over 22,000 more than the  
year before – and that number continues to grow.

Your contribution is an investment  
in our community.

Please give as  
generously as you can.

# Together we turned hope into a reality.
