

**Last year  
in your own backyard**

**1,151**  
**students dropped  
out of school.**

**It doesn't take a  
tsunami...**

to create suffering and needs.

Right here in Montgomery,  
Greene and Preble Counties,  
there are too many young  
people who have lost hope.  
Along with the many more who  
go uncounted, the youth who  
drop out of school each year  
are invisible...until desperation  
leads to tragedy and their story  
makes the news. Please help  
before it is too late. Make a  
difference. Make a donation.  
Your gift matters.
